

## Concrete Hoppers

This attachment is a self-dumping hopper that automatically activates to unload whenever bumper release contacts the side of a dumpster. When dumping is finished, the hopper goes back to an upright and locked position. This particular piece of machinery also comes with a cable which enables operation from the seat of the forklift so as to have the alternative of manually unloading the hopper. There is a locking chain provided to secure the hopper to the tine truck. This particular product is made with consistent and reliable robotic welds for utmost strength. The forklift dumping hopper also has a blue powder coat finish in order to maintain durability.
